How Transformer LLMs Work!
Get Ready for Generative AI

Vinay Chetnani

Senior MLE, Meta London | IIT DELHI
Wembley, England, United Kingdom

Summary

Senior Machine Learning Engineer with 7 years of expertise in Deep Learning, Classical ML, NLP, Ads Ranking systems, Recommendation Engines, Generative AI and LLMs. Proven success in designing and building efficient & scalable ML architectures, leading cross-functional teams, and delivering production-grade models. Skilled at driving collaboration, aligning stakeholders, and managing timelines to deliver high-impact solutions. A passionate problem-solver leveraging cutting-edge advancements to drive innovation and performance. My commitment to continuous learning and achieving ambitious goals is the bedrock of my professional ethos.

Experience

Meta

Senior Machine Learning Engineer - Core Ads Growth
April 2024 - Present (1 year 4 months)
London Area, United Kingdom

- Optimized billion-user-scale Ads ranking models by designing and implementing new features capturing Advertiser and User purchase price affinities, boosting advertiser ROAS.
- Drove feature engineering initiatives for precise ad targeting across Retrieval, Pre-Ranking, and Ranking stages.
- Built scalable feature engineering tools, reducing iteration cycles by 30% to enhance team productivity.

VMock

5 years 9 months
Senior Machine Learning Engineer
July 2021 - March 2024 (2 years 9 months)
Gurugram, Haryana, India

Led cross-functional teams to develop and deploy advanced ML models for competency identification and ranking, across VMock’s products.

Designed & implemented scalable, reliable ML delivery system using Docker/ Kubernetes(EKS, SageMaker) on AWS Cloud

- Resume Bullet Generation with Fine-Tuned LLMs
 - Fine-tuned Microsoft's Phi-2 (2.7B) using LoRA adapters to generate resume bullets from skills, industry, and role inputs
 - Optimized training with Mixed Precision and DeepSpeed, reducing memory usage and training time
- Skills Recommendation Engine
 - Retrieval Stage: Implemented three candidate generators: Sentence-BERT for skill attributes, Matrix Factorization to capture co-occurrence, and Node2Vec + GraphSage for Skills Ontology, achieving 92% recall in retrieving the top 300 skills from 40,000.
 - Ranking Stage: Employed GBDT-based LGBMRanker to predict top-k skills, attaining 87% nDCG@10 on the test dataset.
- Skills Detection in Resume Bullets
 - Developed a multi-label classification model to accurately identify skills from 40,000 distinct labels in resume bullets.
 - Utilized Deep Siamese BERT with Contrastive Loss, achieving an 80% recall rate. Employed bagging to address class bias and imbalance.
- Skills Rating: Evaluating candidates' key skills in their resumes – Utilized Skills Ontology, Graph Algorithms (Dijkstra & HITS-Rank), and resume factors to effectively assess the relevance of candidate skills.

Machine Learning Engineer
July 2018 - July 2021 (3 years 1 month)
Gurgaon, India

DataCultr
Software Developer
May 2017 - July 2017 (3 months)
Gurgaon, India

- Developed a standalone software in Python to extract Deeplinks and Attribution SDK's from apks.
- Created UI and server in Django with Mongo Database for multiple user access.
- Implemented "ProGuard" on apps to increase security against cloning and piracy.

Indian Institute of Technology, Delhi
Cultural Representative, Aravali Hostel
April 2016 - March 2017 (1 year)
Aravali Hostel, IIT Delhi

- Led a team of 11 representatives to secure 4 podium finishes in cultural events.
- Organized Inter-College Socials and fundraised with LSR College for women in 2016.
- Conceptualized and executed Intra Hostel Festival, Exuberance, featuring 9 cultural events over 3 days in 2016.

Education

Indian Institute of Technology, Delhi
Bachelor's degree, Electrical and Electronics Engineering · (2014 - 2018)

Carmel Convent Sr Sec school
Junior High/Intermediate/Middle School Education and
Teaching · (2000 - 2011)
